**COVID-19 regulations for the ITW and the 1st Eberspächer WC in Innsbruck
Return of COVID-19 positive athletes to the sport of luge**

Dear Ladies and Gentlemen,

We would like to inform you that despite the tightened covid-19 regulations, which will come into force in Austria on November 3rd, the ITW and the Eberspächer World Cup in Innsbruck-Igls can take place as planned.

In this context, we ask you to adhere to the following points, in addition to the current COVID-19 prevention concept of the FIL:

A **negative covid-19 PCR test**, which must not be older than 72 hours at the time of entry, is required for **entry into Austria**. The confirmation must be issued in German or English and is to be kept on one's person.

All persons present at the Eberspächer World Cup in Innsbruck must present a negative PCR test on arrival on 11/23/2020 or later, which must not be older than 72 hours. This also applies to athletes/coaches/functionaries who may already be in Innsbruck-Igls for training purposes.

Only **two people per row of seats** are allowed in vehicles in Austria.

In Austria there is a **curfew from 8 pm to 6 am**.

We would like to point out once again that mouth-nose protection must be worn constantly, with the only exceptions during sports activities, when staying in your own room, and of course when eating.

The following test possibilities are offered in the track area in Innsbruck-Igls:

On Monday, 11/23/2020 from 8:00 am - 12:00 pm, further information will follow.

This test is mandatory for all athletes, coaches, and support staff!

On Saturday, 11/28/2020, a new PCR test will be performed to enable everyone to continue their journey to Germany or return home.

If an athlete was covid-19 positive:

Medical confirmation has to be presented that the athlete has fully recovered and **can participate in luge training or competitions at FIL events** again.

Without this medical confirmation, the athlete will not be admitted to training!

Please note the enclosure this letter.

We urgently ask you to observe the points listed above!

Best regards,

Christoph Schweiger
Executive Director of the FIL
