

Dr. Christian Krähe

Chairman of the FIL Legal Committee and the FIL Ethics Commission

Activities in 2020 and 2021

1. Legal Committee

No cases of doping occurred in the years under review, so that no disciplinary proceedings had to be carried out.

After extensive negotiations, a contract could be concluded with the International Testing Agency (ITA) in Lausanne, in which the ITA was entrusted with the performance of the doping tests. This also resulted in an adaptation of regulations of the FIL Anti-Doping Code (FADC).

2. Ethics Commission

The Ethics Commission itself did not have to deal with any proceedings during the reporting period.

However, a complaint from a South American athlete was received by the FIL Ethics Officer because of an alleged sexual assault. However, the Ethics Officer did not come to a decision because the complainant did not continue the complaint procedure, so that it was discontinued.
