III. Monday of the event week

- Test day
 - Individual arrival of the NFs to the international health check (rapid test) test according to schedule
 - Individual arrival of the NFs to the Corona test according to the schedule
 - Tests completion by Monday 2pm in both Innsbruck WCs, Oberhof WC 1, Winterberg WC, Königssee WC and WCh.
 - Test completion by Monday 6:00 pm at the Altenberg WC Sigulda WC, Oberhof WC 2.
 - No access to the venue allowed. (Security)
- Evaluation of the test results
 - Results management
 - Positive PCR test:

People who have tested positive and their assigned contact persons are immediately placed in quarantine and may only participate in the further events after a new health examination (approval by the local health department). In this case, the organizer must immediately coordinate all necessary measures with his health authorities.
 - Positive rapid test:

If a rapid test shows positive, the concerned person must be isolated and tested again immediately. If the second test is positive, a PCR test must be carried out. The organizer must hold these tests accordingly. Until the result of the PCR test, the person is placed in quarantine. This also applies to contact persons assigned to this person. If the PCR test is also positive, the regulations of the results management of the PCR test apply. If the PCR test is negative, the person will be admitted again to the competition.
- Hand-out of the test results taking into account the test and training planning at the accreditation. registration office.

- Issue outside the venue
 - 1st WC → FIL annual- and organizer accreditation additional cards per event,
 - wristband
 - parking passes.
 - From the 2nd World Cup on → wristbands, additional cards, parking passes

- **Return to sport after a overcome SARS-CoV-2**
 - **If people who tested positive are reintegrated after their quarantine period, they will need a specialist health certificate. This must be submitted to the FIL hygiene officer.**
